

PRE-APPLICATION PUBLIC MEETING

On or before September 4, 2018, Yale will submit an application to the Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM) for renewal of its Post-Closure Permit, TNHW-140 (the Permit) issued on March 2, 2009 and expiring on March 2, 2019. The Yale property is located in Loudon County at 100 Yale Avenue, Lenoir City, Tennessee. Interested parties should be aware that the facility relocated its manufacturing operation to a sister site, and the last production at the Yale Avenue site was in February 2013. The property is currently occupied by a warehouse and distribution tenant.

The Permit Renewal Application includes ongoing post-closure maintenance and groundwater monitoring for two surface impoundments that were closed in 1988, and a final groundwater remedy for the site for two solid waste management units and one area of concern. The final remedy will include groundwater monitoring, soil gas and indoor air monitoring, will establish groundwater protection standards, incorporate remediation that has been completed at the site, and allow the existing groundwater pump and treatment system to be discontinued as it is no longer required. Remediation that has been completed at the site includes the treatment of impacted groundwater with remedial materials that promoted reductive dechlorination of the groundwater, a groundwater pump and treat system, and a soil vapor extraction system that treated impacted soil.

A pre-application public meeting will be held on August 20, 2018 at 6:00 pm in the meeting room at the Hampton Inn located at 585 Fort Loudon Medical Center Drive in Lenoir City, Tennessee 37772. The purpose of the meeting is to inform the community of the application to renew the Permit and to answer any questions the community may have. The public is invited to present written or oral comments at the meeting or to the contacts listed below. A summary of the meeting and comments received will be submitted to the TDEC as part of the Application for Renewal of the Permit.

Anyone needing special access in order to participate in this public meeting should contact the Yale representative listed below at least 72 hours before the scheduled meeting.

The TDEC contact person is Mr. Charles Burroughs, Corrective Action Section - DSWM, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 14th Floor, Nashville, TN 37243. You may email him at Charles.Burroughs@tn.gov. The Yale contact person is Mr. Barry Giroux, P.E. Mr. Giroux can be reached by telephone at 860-368-5340, by email at BGiroux@geiconsultants.com, or by mail at GEI Consultants, Inc., 455 Winding Brook Drive, Glastonbury, CT. Further information on this matter may be obtained by contacting either Mr. Burroughs or Mr. Giroux.

Notice issued on July 18, 2018.
